months which appears on the Moneyline/Telerate Page 3750 (or such other page that may replace that page on that service or a successor service) at 11.00 a.m. London time on the fifth Relevant Business Day prior to such day.

If such rate does not appear at the time and day designated above in respect of any day in the Interest Period, the Calculation Agent shall determine the Relevant Rate by requesting the principal London office of each of four major banks in the London interbank market (the “Reference Banks”) to provide a quotation for the rate at which deposits in US$ dollars were offered to prime banks in the London interbank market for a period of 6 months at approximately 11:00 a.m. London time on the fifth Relevant Business Day prior to such day. If at least two such quotations are provided, the Relevant Rate will be the arithmetic mean of the quotations.

If only one such quotation is provided, the Calculation Agent may determine that such quotation shall be the Relevant Rate. If no such quotations are provided, and the Calculation Agent determines in its sole discretion that no suitable replacement Reference Banks who are prepared to quote are available, the Calculation Agent shall be entitled to calculate the Relevant Rate in its sole discretion, acting in good faith and in a commercially reasonable manner.

“Accrual Range” means for each Interest Period within the period from and including April 13, 2005 to but excluding the Maturity Date, equal to or greater than zero per cent. but less than or equal to 7.00 per cent.

Rounding

In applying the formula described above in respect of the Interest Amount, the Calculation Agent shall round the result of:

\[
7.00\% \times \frac{N}{365}
\]

to the nearest one-hundred thousandth of one per cent. prior to multiplying that result by the Authorized Denomination.
