Recent Developments

Following completion of its normal year-end review of the credit quality of the loan portfolio, the Bank’s Management has proposed to the Executive Directors that an additional provisioning charge of approximately $400 million be taken at the end of the fourth quarter of the fiscal year ending June 30, 2001. This recommendation reflects Management’s current assessment of the overall credit quality of the loan portfolio, and it does not reflect any increase in the volume of non-performing loans. The Executive Directors will review Management’s recommendation shortly. At the end of the third quarter of fiscal year 2001, the Bank’s accumulated provision for loan losses was $3.6 billion, constituting about 3% of its loans outstanding plus the present value of its exposure under guarantees, and its equity capital to loans ratio was approximately 21%.
