GENERAL INFORMATION

IBRD's most recently published Information Statement was issued on September 18, 2013.
SUPPLEMENTAL PROSPECTUS INFORMATION

The Prospectus is hereby supplemented with the following information, which shall be deemed to be incorporated in, and to form part of, the Prospectus.

The Executive Directors of IBRD approved two Management proposals on February 11, 2014.

The Executive Directors approved a package of measures designed to enhance IBRD's financial capacity to meet borrowing country needs, comprised of the following four elements:

- IBRD's target minimum equity-to-loans ratio was revised from 23 percent to 20 percent, reflecting improvement in IBRD's portfolio credit quality since the previous target was adopted in 2008; as of December 31, 2013, IBRD's equity-to-loans ratio was 25.8 percent;
- IBRD's Single Borrower Limit (SBL) was increased to $20 billion for India and $19 billion for other SBL-eligible borrowing countries, with a surcharge of 50 basis points per annum on loan balances in excess of the previous SBL ($17.5 billion for India and $16.5 billion for other SBL-eligible borrowing countries) in order to help support the increase in the SBL;
- Commitment fees of 25 basis points per annum on undisbursed balances on IBRD loans will be restored, effective July 1, 2014; and
- The maximum maturity for most IBRD loans and guarantees will be extended from the current limits of 30 years final/18 years average to 35 years final/20 years average, with the application of a revised maturity premium schedule, effective July 1, 2014; the maturity premium charges will increase, with the starting point for these charges starting at 8 years average maturity rather than the prior level of 12 years average maturity.

The Executive Directors also approved a new Equity Management Framework (EMF), which shares the same objective as the equity duration extension strategy approved in 2007 - namely, to reduce the sensitivity of IBRD's equity income to fluctuations in short-term interest rates. The EMF provides more flexibility to manage equity income. In particular, the EMF allows for the possibility of shortening the duration of IBRD's equity, when warranted by market and macroeconomic conditions, whereas the equity duration extension strategy required that duration be maintained within a range of 4 to 5 years. The EMF also provides for a wider variety of tools and strategies for managing equity income than the equity duration extension strategy. The Executive Directors approved Management's recommendation to maintain a short duration for equity in the short-term, with the authority to enter into other approved strategies or combinations thereof as market conditions warrant.

LISTING APPLICATION

These Final Terms comprise the final terms required for the admission to the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's regulated market of the Notes described herein issued pursuant to the Global Debt Issuance Facility of International Bank for Reconstruction and Development.

SUPPLEMENTAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

United States Internal Revenue Service Circular 230 Notice: To ensure compliance with U.S. Internal Revenue Service Circular 230, prospective investors are hereby notified that: (a) any discussion of U.S. federal tax issues contained or referred to in this Final Terms or any document referred to herein is not intended or written to be used, and cannot be used by prospective investors for the purpose of avoiding penalties that may be imposed on them under the U.S. Internal Revenue Code; (b) such discussion is written for use in connection with the promotion or marketing of the transactions or matters addressed herein; and (c) prospective investors should seek advice based on their particular circumstances from an independent tax advisor.

Information with Respect to Foreign Financial Assets. Owners of “specified foreign financial assets” with an aggregate value in excess of $50,000 (and in some circumstances, a higher threshold) may be required to
file an information report with respect to such assets with their tax returns. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions (such as the Notes), as well as the following, but only if they are not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts held for investment that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this legislation to their ownership of the Notes.

Medicare Tax. A U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the U.S. holder’s “net investment income” for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between $125,000 and $250,000, depending on the individual’s circumstances). A holder’s net investment income will generally include its gross interest income and its net gains from the disposition of Notes, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a U.S. holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Notes.

RESPONSIBILITY
