Country Challenge
In the Municipality of Wuhan, 82% of the people either walk, bike or ride public transport. There are high rates of fatal accidents among pedestrians and cyclists due to encroaching cars. Wuhan wants to develop an integrated, safe, and environmentally-friendly urban transport system that supports coverage and quality services, and the safety of pedestrians and cyclists.

Project Goals
The project supports improvements to the management of the public transport system.

Green Bond Criteria: Mitigation
To improve the environment through enhancing public transport system.

Expected Results include:
- 459,000 tons of CO₂eq. emissions reduced annually.
- Establish facilities for pedestrians and cyclists.
- Improved air quality.

IBRD Loan Amount:
US$100 million
