What are the underpinnings of the World Bank’s triple-A rating?
- Quality loan portfolio that benefits from preferred creditor status
- Prudent risk management
- Substantial liquidity and consistent profitability
- Diversified shareholder base

Who are the World Bank’s shareholders and how much capital do they own?
- 188 member countries have subscribed to US$223.2 billion of subscribed capital (paid in capital + callable capital)
- The largest shareholders include the United States (16.05% of total subscribed capital), Japan (8.94%), China (5.76%), Germany (4.73%), and France and the United Kingdom (with 4.22% each)

What is the World Bank’s gearing ratio limit?
- The maximum gearing ratio is 1:1 – outstanding loans and guarantees may not exceed subscribed capital, reserves and surplus

What does the World Bank’s loan portfolio look like?
- Lending is limited to sovereigns or sovereign-guaranteed projects in eligible member countries
- Only countries with at least US$1,215 of annual per capita income are eligible (poorer countries receive concessional financing from a separate entity in the World Bank Group)
- Currently, the six largest country exposures are Mexico, Turkey, China, Indonesia, India, and Brazil.

What’s the World Bank’s liquidity policy?
- Large amount of liquidity supports flexibility
- Actual liquidity is always greater than the minimum liquidity target, calculated as the highest consecutive six months of debt service plus half of the estimated loan disbursements that year

Is the World Bank profitable?
- Yes, although we are not a profit-maximizing institution, strong financial performance is important to sustainably support development goals

History

- IBRD was created in 1944 to rebuild Europe after World War II.
- IBRD has been referred to as “World Bank” almost as soon as it was established. The term was initially coined by the media -- including The Economist and The Washington Post.
- IBRD approved its first loan in the amount of USD250 million to France for reconstruction purposes. This was one of the largest loans in real terms made by the World Bank in its first fifty years.
